2. The following is an examiner's statement of reasons for allowance: With respect to independent claims 1 and 3, the instant invention is directed to a receiver and a receiver having a power source, a method comprising receiving program signals and first program guide information, the first program guide information including broadcasting time information of a program. object to a respective one of the time slots spanned by the program; a retrieval unit employing a given one of the time slots as a search condition to set retrieval processing, the retrieval unit being operable to retrieve a respective one of the clone EPG objects for the second program guide information from the retrieval table using the given time slot as the search condition to identify the respective clone EPG object for the program, wherein a program table for displaying information of the program to a user is generated based on the respective clone EPG object..." as recited in combination with other features of independent claims 1 and 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
